## Relative importance of different segments of General Studies on the Basis of analysis of UPSC Prelims' previous twelve years papers

The proportion, in which questions are going to be asked from the different sections of the syllabus in the General Studies paper, is not fixed. Generally, more questions were asked from History, Polity, Environment and Ecology, Economics and Geography, but 2016 witnessed an overhaul in this pattern. This tendency of change of pattern was apparent in the 2023 paper as well. Thus, the proportional distribution of questions is something which is very uncertain. The following table can help you know the proportion of questions asked from various sections from 2013 to 2024.

Segments	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024

The table given below highlights that how many questions have been asked from different sections of CSAT in the last twelve years.

### Break down of questions asked in CSAT 2013-2024
