Recently the teenage climate campaigner **Greta Thunberg** after completing her 15-day journey across the Atlantic via Zero-emission yacht urged **“to end the war on nature.”**

She led the popular initiative **#FridaysForFuture**.

#FridaysForFuture

- It is a movement that began in Sweden in August 2018 to protest against the lack of action on the climate crisis.
- The hashtags **#FridaysForFuture** and **#Climatestrike** became so popular that many students and adults began to protest outside of their Parliaments and local city halls all over the world.
- **#Climatestrike** is a global event to demand an end to the age of fossil fuels & climate justice for everyone. It is a wake-up call to our generation to solve the greatest environmental challenge in human history.
