

Country's First Green Booth in Lucknow | Uttar Pradesh | 25 Feb 2022

Why in News

- In the fourth phase of voting for the Uttar Pradesh Legislative Assembly that was held on February 23, 2022, a green booth was set up at AP Sen PG College, Lucknow.

Key Points

- This green booth was made to give a message to the people about the environment.
- The specialty of this booth is zero carbon emissions. Here the whole system was operated with alternative energy (solar energy).
- To give voters a better feel of the festival of democracy, arrangements in this booth have been made with beautiful, handmade decorations, such as rangoli and pots for water.
- It is worth mentioning that for the awareness of voting, Pink booths and Adarsh booths are also constructed.
