

Mercenary Spyware Attack

Source: TH

Apple has recently issued urgent security alerts to **iPhone users** in India and 91 other countries. The notifications warn that their devices have been remotely targeted in a **mercenary spyware attack.**

- Mercenary spyware attacks are exceptionally rare and highly sophisticated compared to regular <u>cybercriminal activity</u> or consumer malware.
- Unlike common cyber threats, mercenary spyware aims to gain unauthorised access to a user's device.
 - If a device is compromised by a targeted mercenary spyware attack, the attacker may be able to remotely access sensitive data, communications, or even the camera and microphone.
 - These are **strategically aimed**, high-cost attacks, historically linked to states, targeting select individuals like journalists, activists, politicians, and diplomats.
 - Pegasus, developed by the NSO Group is one of the examples of Mercenary Spyware.

'Crime in India' Report 2022 (NCRB) highlighted 24.4% surge in cybercrimes in India since 2021.

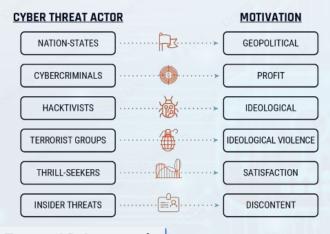

Common Cybersecurity Myths

- (y) Strong passwords alone are adequate protection
- (b) Major cybersecurity risks are well-known
- (s) All cyberattack vectors are contained
- (y) Cybercriminals don't attack small businesses

Cyber Warfare

 Digital attacks to disrupt vital computer systems, to inflict damage, death, and destruction.

CYBER THREAT ACTORS

Types of Cybersecurity

- (Sobust access controls)
- Network security (Deploying firewalls)
- (Sode reviews)
- (Security (Tokenization))
- Information security (Data masking)

Recent Major Cyber Attacks

- WannaCry Ransomware Attack (2017)
- (2018) Cambridge Analytica Data Breach
- (S) Financial data of 9M+ cardholders, including SBI, leaked (2022)

Regulations & Initiatives

- International:
 - UN Group of Governmental Experts (GGE) on Advancing Responsible State Behaviour in Cyberspace
 - NATO's Cooperative Cyber Defense Centre of Excellence (CCDCOE)
 - Budapest Convention on Cybercrime, 2001 (India not a signatory)
- (India:
 - (Fig. 1) IT Act, 2000 (Sections 43, 66, 66B, 66C, 66D)
 - → National Cyber Security Policy, 2013
 - (ii) National Cyber Security Strategy 2020
 - (E) Cyber Surakshit Bharat Initiative
 - (Hall) Indian Cyber Crime Coordination Centre (I4C)
 - Computer Emergency Response Team-India (CERT-In)

Steps Needed for Cyber Security

- Network Security
- (Malware Protection
- (Incident Management
- (5) User Education and Awareness
- Secure Configuration
- (Managing User Privileges
- (Information Risk Management Regime
