

# Ship Acquisition, Financing and Leasing (SAFAL): IFSC Report

## Why in News

Recently, the report titled **Ship Acquisition, Financing and Leasing (SAFAL)** was submitted by the Committee for Development of Avenues for Ship Acquisition, Financing and Leasing to the **International Financial Services Centres Authority (IFSCA)**.

## **Key Points**

#### About the Committee:

- Formation: It was constituted by IFSCA in June 2021 with representatives from the Government of India, Gujarat Maritime Board, industry and finance experts, and academicians.
- Objective: Focus remained on enabling cost-effective and competitive delivery of shipping services on ships owned and leased from India-offshore IFSC which is on par with overseas competitors.

### Observations of the Committee:

- Net Importer of Shipping Services: Despite having a large coastline, growing domestic
  market and international seaborne trade, deep-rooted maritime traditions, and skilled
  seafarers, India continues to have a smaller share in the international shipping
  sector, thus becoming a net importer of shipping services especially ship finance.
- Required Changes: It has presented the critical and necessary changes required to bring this greenfield venture to India IFSC.
  - These cover legal and regulatory domains, direct and indirect taxes, ship finance, and ease of doing business drawing upon global best practices.
- Imparting Brand Value: It finds that the time is opportune for imparting a brand value to Indian-flagged vessels.
  - This can be done by carving out a share in global cross trades, securing
    gainful transactions for India's marketplace, promoting decarbonization and
    greening of the blue oceans, and leveraging India-IFSC Maritime for
    achieving the Maritime India Vision 2030 and beyond.
    - Maritime India Vision 2030 is a ten-year blueprint for the maritime sector which was released by the Prime Minister of India at the Maritime India Summit in November 2020.
    - It will supersede the <u>Sagarmala initiative</u> and aims to boost waterways, give a fillip to the shipbuilding industry and encourage cruise tourism in India.

## Importance of the Shipping Sector for India:

• Nearly half of India's border is covered by sea, with a coastline of about 7,517 km, with 12

major and 205 minor ports.

- India is also **strategically located** on the world's shipping routes.
- It is estimated that **about 95% of India's goods trade by volume** and **70% by value** is done through maritime transport.
- India has significant exposure to maritime freight rate. Seaborne freight is estimated to be \$85 billion annually.
  - The **share of Indian ships in carrying India's export-import cargo** was about 6.53% in FY 2019-20.
  - Each year India is estimated to pay about \$75 billion seaborne freight to foreign shipping companies.
  - India is thus well placed to step up its investment in the shipping industry.
- Related Measures taken by the Government:
  - Revision of the criteria for Right of First Refusal (ROFR): The criteria for granting the Right of First Refusal in chartering of vessels through tender process has been revised, for promoting tonnage under Indian flag and ship-building in India, so as to make India a <u>Atmanirbhar/self-reliant</u> in terms of tonnage and ship-building in India.
  - Subsidy Support to Indian Shipping Companies: A scheme for the promotion of flagging of merchant ships in India by providing Rs.1624 crore over a period of five years as subsidy support to Indian shipping companies in global tenders floated by Ministries and <u>CPSEs</u> has been approved by the Cabinet.
  - Ship Building Financial Assistance Policy (2016-2026): Government of India approved the Financial Assistance Policy for Indian Shipyards in December 2015, for grant of financial assistance to Indian Shipyards.

## **International Financial Services Centre (IFSC)**

- An IFSC enables bringing back the financial services and transactions that are currently carried out in offshore financial centres by Indian corporate entities and overseas branches/subsidiaries of Financial Institutions (such as banks, insurance companies, etc.) to India.
  - It offers a **business and regulatory environment** that is comparable to other leading international financial centres in the world like London and Singapore.
- IFSCs are intended to provide Indian corporates with easier access to global financial markets, and to complement and promote further development of financial markets in India.
- The first IFSC in India has been set up at the Gujarat International Finance Tec-City (GIFT City) in Gandhinagar.
- The central government has established the <u>International Financial Services Centres</u>

  <u>Authority</u> to regulate all financial services in International Financial Services Centres (IFSCs) with headquarters in Gandhinagar (Gujarat).
