

Red Alert in Jaipur | Rajasthan | 24 May 2024

Why in News?

The **Jaipur weather office** has **issued a red alert** as temperatures are predicted to exceed 49 degrees in various parts of Rajasthan, emphasizing the importance of taking **"extreme care for vulnerable individuals."**

Key Points

- According to the <u>India Meteorological Department (IMD)</u>, the <u>heatwave</u> will continue over the next few days. Severe heat wave conditions will be recorded in **Jodhpur**, **Bikaner divisions and Shekhawati region**.
 - To provide some relief from the scorching heat, the Bikaner district administration has started sprinkling water on the roads in various areas of the city.
 - Additionally, the State government has cancelled the leave of officers and employees of the Water Department to ensure an uninterrupted supply of drinking water.

India Meteorological Department (IMD)

- About:
 - It is the **National Meteorological Service** of the country and the principal government agency in **all matters relating to meteorology** and allied subjects.
 - It is an agency of the Ministry of Earth Sciences, Government of India.
- Objectives:
 - To take meteorological observations and to provide current and forecast meteorological information for optimum operation of weather-sensitive activities like agriculture, irrigation, shipping, aviation, offshore oil explorations, etc.
 - To warn against severe weather phenomena like tropical cyclones, norwesters, dust storms, heavy rains and snow, cold and heat waves, etc., which cause destruction of life and property.
 - To provide meteorological statistics required for agriculture, water resource management, industries, oil exploration and other nation-building activities.
 - To conduct and promote research in meteorology and allied disciplines.
