

Singur Dam

- Singur Dam is located in Medak district of **Telangana**.
- It was constructed on the Manjeera River in 1989.
 - Manjeera is a tributary of Godavari river.
 - Manjeera river originates in Maharashtra and flows from the states of Karnataka and Telangana.

The Vision

- It is a reservoir built for hydroelectric and irrigation purposes.
- It also serves as a source of drinking water for Hyderabad.
 The deep waters of the reservoir are home to about 1000 crocodiles.
