

Chief Minister inaugurates International Conference at Chaudhary Charan Singh Haryana Agricultural University

Why in News?

On December 4, 2023, Haryana Chief Minister Manohar Lal inaugurated the international conference organised at Chaudhary Charan Singh Haryana Agricultural University on the topic Strategy for Global Food-Nutrition Security, Sustainability and Health.

Key Points:

- During this, the Chief Minister was informed that an Agri Business Incubation Centre has been established in the university to promote startups of young entrepreneurs.
- Through this centre, 100 startups have been started in the last 4 years by providing an amount of Rs 6 crore. Through these startups, the best varieties of banana, sugarcane and prepared food products from coarse grains have been prepared using tissue culture technology.
- After this, the Chief Minister also held a meeting with eminent scientists from famous research institutions of 14 countries. He said that Haryana state has made great achievements in the agriculture sector. The agricultural products here are being exported to many countries in the country and the world. Now the state government is working with many countries of the world to increase its production as well as its quality.
- It may be noted that a three-day international conference is being organised at the University under the leadership of Prof.B.R. Kamboj, Vice Chancellor and Chief Patron of the Conference from 4th to 6th December in which 900 scientists & researchers from 15 countries including the US, UK, Canada, Kazakhstan, Japan, Egypt, France, Germany, Tunisia, Brazil, Morocco are participating.
- In the inaugural session of the conference, Arthur C. Ryder, co-winner of the IPCC Nobel Prize in France and Professor Sergio Capareda, Faculty Fellow of the University of Texas A and M, USA delivered lectures on technical issues.
