# India's 75<sup>th</sup> Army Day

The Indian Army commemorated 75<sup>th</sup> Army Day on **15<sup>th</sup> January** at the Parade Grounds in Hyderabad.

On this day in 1949, Field Marshal K.M. Cariappa took over as the first Indian Commander-in-Chief of the Indian Army, replacing his British predecessor (General Sir Francis Butcher). General Cariappa was second of the only two Army officers to have held the five-star rank of Field Marshal (first being Sam Manekshaw).

The day honours the soldiers of the country, who have set the greatest example of selfless service and brotherhood and more than anything the love for the country.

Note - Army Day is different from the <u>Veterans Army Day</u> celebrated on 14 Jan which marks the formal retirement of Field Marshal KM Cariappa from the Services.

## **Avalanches**

The recent days have witnessed **increased stances of avalanches** in the region of Kashmir where the **Zojila tunnel project** is being implemented. The authorities have **issued an avalanche warning with 'low-danger level'** for 11 districts.

Avalanches are **masses of snow, ice, and rocks** that fall rapidly down a mountainside. **Avalanches of rocks or soil are often called** <u>landslides</u>. Snowslides are the most common kind of avalanche. **Humans trigger 90% of avalanche disasters**; most of them being skiers, climbers and snowmobilers.

#### Avalanches strike suddenly and can be deadly.

### **Business Confidence Index**

The latest CII Business Confidence Index (for Oct-Dec 2022 quarter) **rebounded to its highest reading in almost 2 years of 67.6 (from 62.2** in the previous quarter), reflecting optimism around **India being in a safe spot despite the rising global economic uncertainties.** 

As per<u>OECD</u>, a Business Confidence Index **provides information on future developments**, based upon opinion surveys on developments in production, orders and stocks **of finished goods in the industry sector.** 

The CII (Confederation of Indian Industries) is a non-governmental, not-for-profit, industry-led and industry-managed organization. It was founded in 1895 and is headquartered in New Delhi.

#### **Invasive Tree Species**

**Delhi's State EIA Authority** has asked the State Forest Department to **take steps to contain and exterminate** 3 rapidly growing **invasive tree species** - **Vilayati Kikar** (Prosopis Juliflora), **Subabul** (River tamarind) and **Eucalyptus** as they are adversely affecting the local ecology.

Vilayati Kikar - the Mexican invasive species introduced by the British in 1930s, is the most harmful. It is the only form of vegetation visibly thriving on the Delhi Ridge.

Eucalyptus, which came from Australia, is not invasive in nature, but uses a lot of water as it is a fast-growing tree. It also shows allelopathic effects (releases compounds which make it difficult for other native species to grow nearby).

Subabul also comes from Mexico and was introduced by the forest department for fuel and fodder. All three species are depleting the groundwater table.
