

IMD Colour-Coded Warnings

[Source: TH](#)

Colour-coded alerts have been issued by the [India Meteorological Department \(IMD\)](#) for several districts in Kerala due to potential isolated heavy to very heavy rainfall in the state.

- The **IMD** issues [color-coded weather warnings](#) to alert people about severe or hazardous weather that could cause damage, disruption, or danger to life.
 - It uses **4** color-coded warnings as: **Green, Yellow, Orange/Amber and Red** depending upon the severity of weather phenomena.

	NO SEVERE WEATHER EXPECTED Keep up to date with latest forecast
	BE AWARE Remain alert and keep up to date with latest forecast
	BE PREPARED Remain vigilant, keep up to date with latest forecast and take precautions where possible
	TAKE ACTION Remain extra vigilant, keep up to date with latest forecast. Follow orders and any advice given by authorities and be prepared for extraordinary measures

- IMD was established in 1875 as an agency of the **Ministry of Earth Sciences** of the Government of India.
 - It is responsible for meteorological observations, weather forecasting, and seismology.
 - It is headquartered in **New Delhi**.
 - IMD is also one of the six Regional Specialized Meteorological Centres of the [World Meteorological Organization](#).
