What is meant by Decolonization of Indian education system?

- Industrialization and its consequential imperialism and colonialism have impacted this world for three centuries.
- India has been a colony of the British Empire for two centuries.
- These eventful two centuries of Indian history did see the influence of not only the political and economic might of Britain but its influence on every milieu of Indian life.
- India's indigenous education system was gradually displaced, and the colonial model of education pervaded under the patronage from the colonial-state.
- The language, pedagogy, evaluation and knowledge of the colonizer became naturalis obligato (Natural Obligation) for the population of the colony.
- Although India got independence in 1947, still Indian education system is heavily dominated by western world.
- Hence, there is a need to decolonize Indian education System immediately.
