

Kufos Joins NISAR Phase II Project

Source: TH

The **Kerala University of Fisheries and Ocean Studies (Kufos)** will participate in the advanced [NASA-ISRO Synthetic Aperture Radar \(NISAR\) Phase II research project](#), focusing on [forest biomass](#) and [carbon monitoring](#) through radar data.

- This collaboration follows the successful completion of the initial phase of the [Indian Space Research Organisation \(ISRO\)-NISAR program](#) that focused on validating ground truth data in forest biomass across various regions
- NASA and ISRO are jointly developing a **space-borne synthetic aperture radar**, scheduled for launch in 2024.
 - NISAR aims to revolutionise earth resource observation by providing high-resolution data for extensive areas.
 - The project holds significant potential for systematic monitoring of **agriculture, forestry, wetlands, and soil moisture estimation**.
