

# DST-IBM Collaboration for STEM

## Why in News

Recently, the [Department of Science and Technology](#) (DST) and **International Business Machines Corporation** (IBM) India have announced **collaborations to scale up the initiatives, [Vigyan Jyoti](#) and [Engage with Science](#).**

- Both DST and IBM India **aim to create a robust STEM ecosystem** that nurtures critical thinkers, problem-solvers, and next-generation innovators.
- DST and IBM India will **work together to further integrate and develop science and technology in the education ecosystem** with short term courses, workshops, mentoring, and online science content communication for teachers and students in India.

## Key Points

### ▪ Vigyan Jyoti:

- It was **launched by the DST in 2019**.
  - **Aims:**
    - To **promote [Science, Technology, Engineering, and Mathematics](#) (STEM) learning** among girl students and build confidence and excitement towards these streams.
      - STEM is a **curriculum** based on the idea of educating students in 4 specific disciplines, science, technology, engineering and mathematics, in an interdisciplinary and applied approach.
    - To **create a level-playing field** for meritorious girls from **grades 9 to 12**, especially from the top colleges in the areas where girls are hugely underrepresented.
    - To solve the multidimensional problems associated with the **[meagre representation of women](#)**.
  - The programme provides a **scholarship, visit to nearby scientific institutions, science camps, lecturers** from eminent women scientists, and **career counselling**.
  - It is currently **implemented by Jawahar Navodaya Vidyalaya** (JNV) in 58 districts, with the participation of about 2900 students.
    - JNV is a **system of central schools for talented students predominantly from rural areas** in India.
    - They are run by **Navodaya Vidyalaya Samiti**, New Delhi, an **autonomous organization under the Department of School Education and Literacy**, Ministry of Education.
- ### ▪ Engage with Science:
- Engage with Science by **Vigyan Prasar** is another initiative to **build interest and create a community of practice** with students, teachers, and scientists connecting the high school students to the higher education institutions.

- **Vigyan Prasar** is an autonomous body under the DST to help India's science popularisation agenda through several strategic initiatives.
- This is an **interactive platform** that will be built on the **Over-The-Top (OTT) platform** to encourage and inspire high school students to pursue science and technology for a career.
  - An OTT media service is **any online content provider that offers streaming media as a standalone product**.
  - The term is **commonly applied to video-on-demand platforms**, but also refers to audio streaming, messaging services, or internet-based voice calling solutions.
  - It needs **access to the internet and smartphones, tablets, laptop/computers**.
- **Benefits of the Collaboration:**
  - It will make these programmes reach the students and teachers in **interactive ways on a large scale which will make learning relevant** and foster scientific spirit among the country's youth.
  - **Existing opportunities** for meritorious girls to nurture their interest in STEM **will be expanded** through the learning platforms.
  - The engagement with science platforms will **make students interact, participate and get involved with the sampling and active consumption of science and technology content**, including Cloud, Big Data, etc. through the usage of digital tools.
  - This will **strengthen the DST's initiative to increase the number of women in technology** fields.
