

Sensex Touches 80,000 Mark

Source: IE

Recently, the **Bombay Stock Exchange (BSE) Sensex** has crossed the 80,000 mark for the first time on **4th July 2024**, hitting a new peak of 80,074 during intraday trades.

- The Sensex has **doubled in the last 5 years**, after taking 12 years to climb from 20,000 to 40.000.
 - It has crossed its first 10,000 level in 2006, the 20,000 level in 2007, and the 40,000-mark in 2019.
- Sensex (Stock Exchange Sensitive Index):
 - It is a stock market index that tracks the performance of the 30 largest and most actively traded companies listed on the <u>Bombay Stock Exchange (BSE)</u> in India.
 - A stock exchange is a centralised location where the shares of publicly traded companies are bought and sold. BSE is the oldest stock exchange in Asia established in 1875.
 - The Sensex was launched in 1982 by the BSE.
 - It is used by **analysts and investors to track India's economic cycles** as well as the growth and decline of specific sectors.
 - The Sensex is **re-evaluated two times a year,** one in June and the next in December.
- Another stock market index named Nifty 50 tracks the performance of 50 companies that are listed on the National Stock Exchange (NSE). It was introduced in 1996.
