

# **Workers Trapped in Floodwaters in Bihar**

## Why in News?

According to the sources, around 150 workers are trapped in floodwaters in Bagaha, Bihar due to heavy rainfall.

## **Key Points**

- The State Disaster Response Force (SDRF) has rescued about 40 of the 150 stranded workers, including elderly, women, and children.
- According to the Water Resources Department, major rivers, including Kosi, Mahananda, Bagmati, Gandak, Kamla Balan, and Kamla, are above the danger mark. The Vision

### **Kosi River**

- The Kosi is a trans-boundary river which flows through Tibet, Nepal and India.
- It has its source in Tibet that includes the world's highest upland, it then drains a large part of Nepal before emerging onto the Gangetic plains.
- Its three major tributaries, the Sun Kosi, Arun and Tamur meet at one point just upstream of a 10 km gorge cut through the <u>Himalayan foothills</u>.
- The river crosses into **northern Bihar**, where it branches into distributaries before joining the **Ganges near Kursela in Katihar district**.
- The Kosi carries the maximum amount of silt and sand after the Brahmaputra in India.
- It is also known as the "Sorrow of Bihar" as the annual floods affect about 21,000 sq. km. of fertile agricultural lands thereby disturbing the rural economy.

#### **Mahananda River**

- Mahananda river is a tributary of the Ganga.
- It originates from the Himalayas in Darjeeling, West Bengal.
- The river **flows through Bihar, West Bengal**, and then continues southeastward to join the Ganga at Godagari in Bangladesh.
