

Harit Sagar: The Green Port Guidelines 2023

For Prelims: Harit Sagar Green Port Guidelines 2023, Zero Carbon Emission Goal, Sagar Shreshtha Samman awards, Green Reporting Initiative (GRI) standard.

For Mains: Harit Sagar: The Green Port Guidelines 2023, Zero Carbon Emission Goal.

Why in News?

Recently, the Ministry of Ports, Shipping & Waterways has launched 'Harit Sagar' Green Port Guidelines 2023 to achieve the Zero Carbon Emission Goal.

 Sagar Shreshtha Samman awards were also conferred to major ports for their exceptional achievements in various operational parameters.

What are Harit Sagar Guidelines 2023?

About:

- Harit Sagar is a Sanskrit term that means "green ocean". It reflects the vision of making India's ports more environmentally friendly and sustainable.
- They also cover aspects of the <u>National Green Hydrogen Mission</u> pertaining to ports, development of green hydrogen facility, LNG bunkering, and Offshore Wind Energy among others.
- These guidelines also provide the provision for adopting the global Green Reporting Initiative (GRI) standard.

Objectives:

- To promote the adoption of best practices and technologies for green port development and operations, such as renewable energy, water conservation, biodiversity protection, and climate resilience.
- To minimize waste through Reduce, Reuse, Repurpose and Recycle to attain zero waste discharge from port operations.
- To establish a rating system for assessing and benchmarking the environmental performance of ports based on various indicators and parameters.
- To **incentivize and recognize the ports** that achieve high standards of environmental excellence and sustainability.
- To facilitate the integration of green port principles into the planning, design, construction, operation, and maintenance of port infrastructure and services.

Significance:

- They are aligned with India's commitments under the <u>Paris Agreement</u> and the <u>Sustainable Development Goals</u>, as well as the national policies and initiatives such as the <u>National Action Plan on Climate Change</u>, and the <u>Swachh Bharat Mission</u>.
- They are expected to enhance **India's image and reputation as a responsible maritime nation** that cares for its environment and its people.
- They are expected to create new opportunities for innovation, investment, employment, and collaboration in the port sector.

Benefits:

- Enhancing the **competitiveness and attractiveness** of ports by improving their **efficiency**, **reliability**, **safety**, **and quality of service**.
- Reducing the operational costs and increasing the revenue generation potential of ports by optimizing the use of resources and minimizing waste.
- Improving the **environmental compliance.**
- Mitigating the environmental impacts and risks of port activities by reducing <u>greenhouse</u>
 <u>gas emissions</u>, air pollution, noise pollution, water pollution, and <u>marine litter</u>.
- Contributing to the national and global goals of sustainable development and climate action by supporting the transition to a low-carbon and circular economy.

What are the Challenges and Barriers for Implementing?

- Lack of awareness and capacity among port stakeholders.
- Lack of **coordination and collaboration** among different agencies and sectors.
- Inadequate data and information on environmental aspects of ports.
- Weak enforcement and monitoring mechanisms for environmental compliance.

What are India's Efforts for Green Port Development?

- Initiatives:
 - Green Port Awards, Green Port Policy, and Sagarmala Programme.
- Setting Targets:
 - Increase the share of renewable energy in ports, reduce carbon emissions per ton of cargo handled, and adopt green fuels and technologies for port operations.
- Selection as Pilot Country:
 - India selected as the first country under the IMO Green Voyage 2050 project to conduct a pilot project related to green shipping.

What is the Sagar Shreshtha Samman Award?

- The Sagar Shreshtha Samman Award is conferred by the Ministry of Ports, Shipping and Waterways to major ports in India for their outstanding achievements in various operational parameters.
 - The award recognizes ports that demonstrate high standards of environmental excellence and sustainability.
- The awards for FY2022-23 are:

Conclusion

- The Harit Sagar guidelines are a visionary initiative that will transform the Indian port sector and make it more sustainable and resilient in the face of the changing climate and market conditions.
- The guidelines will not only benefit the ports but also the environment and society at large.
 - They will also enhance India's image and reputation as a responsible maritime nation that
 cares for its environment and its people. The Harit Sagar guidelines are a shining
 example of how India is leading the way in green port development and
 operations.
