

Hi-tech Beekeeping Training Center to be Built in Champawat

Why in News?

On April 21, 2022, Chief Minister Pushkar Singh Dhami gave instructions to the officers of the Horticulture Department regarding the establishment of a training center in Champawat during the honey extraction program organized at the Chief Minister's residence.

Key Points

- It is worth mentioning that Chief Minister Dhami had recently directed to develop the premises of the Chief Minister's residence as a model of horticulture activities, so that the people visiting the Chief Minister's residence can get first-hand experience and information about modern techniques in horticulture.
- On this occasion Director Horticulture Harminder Singh Baweja informed that apart from honey production, bees increase agricultural production by increasing pollination.
- Similarly products like royal jelly, propolis, beeswax, pollen, comb honey and bee venom are also prepared by beekeepers.
- It is worth noting that Sweet Revolution is an ambitious initiative of the Government of India to promote beekeeping, which is known as 'beekeeping'. The National Beekeeping and Honey Mission was launched by the government in the year 2020 (under the Ministry of Agriculture and Farmers Welfare) to promote the sweet revolution.
