

ASEAN-India Economic Ministers' Consultations

Why in News

Recently, the 17th <u>ASEAN-India</u> Economic Ministers Consultations was held virtually, co-chaired by India and Vietnam.

The meeting was attended by the Trade Ministers of all the 10 <u>ASEAN (Association of Southeast Asian Nations)</u> countries viz. Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand and Vietnam.

Key Points

- Related to Covid-19: The Ministers reaffirmed their commitment to take collective actions in mitigating the economic impact of the <u>Covid-19</u> pandemic.
 - They also resolved to ensure macroeconomic and financial stability and resilient supply chain connectivity, particularly the unimpeded flow of essential goods and medicines in the region, in compliance with the <u>WTO</u> rules.
- AIBC's Report: The report of the ASEAN India Business Council (AIBC) was placed.

- It has recommended that the ASEAN India Trade in Goods Agreement (AITIGA) be reviewed for mutual benefit.
- The review will make the Agreement modern with contemporary trade facilitative practices, and streamline customs and regulatory procedures.
- ASEAN India-Business Council (AIBC) was set up in March 2003 as a forum to bring key
 private sector players from India and the ASEAN countries on a single platform
 for business networking and sharing of ideas.
- AITIGA: Discussions on review of the ASEAN India Trade in Goods Agreement (AITIGA) took place.
 - The AITIGA is a <u>Free Trade Agreement (FTA)</u> among the ten member states of the Association of Southeast Asian Nations (ASEAN) and India which came into force in January, 2010.
 - India emphasized on review on AITIGA at the earliest and the need to strengthen the Rules of Origin provisions, work towards removal of non-tariff barriers and provide better market access.
 - The Rules of Origins provisions of AITIGA specify that the preferential treatment under the agreement will be applicable **only to goods which have wholly or partially originated** in the exporting country.
 - India wants strict rules of origin to prevent Chinese goods from flooding the country through ASEAN member countries that may have lower or no duty levels.
 - A nontariff barrier is a way to restrict trade using trade barriers in a form other than a tariff. Nontariff barriers include quotas, embargoes, sanctions, and levies.
 - India has concerns regarding the FTA, given that its FTA with ASEAN is leading to increased trade deficits with several ASEAN partners.
 - India's trade deficit with the ASEAN rose from around 5 billion USD in 2011 to 21.8 USD billion in 2019.

Background:

- In 2003, India and ASEAN signed a Framework Agreement on Comprehensive Economic Cooperation to establish an ASEAN-India Regional Trade and Investment Area, which would provide a basis for subsequent FTAs covering goods, services and investment.
- India dropped out of the Regional Comprehensive Economic Partnership (RCEP) in November 2019 at <u>ASEAN+3</u> summit, because of increasing trade deficits with partner nations and <u>increasing China-India tensions</u>.
- Recently, India participated in the 6th roundtable meeting of the ASEAN-India Network of Think Tanks (AINTT).
 - India **highlighted the difficulties** that were hindering strong response to deal with the **Covid-19 pandemic.**

Way Forward

- An immediate review of the agreement and the effective utilisation of the ASEAN-India Free Trade Agreement will contribute to the realisation of the 2020 trade target of 200 billion USD set by India and ASEAN.
- Over dependence of India and other countries on China can be decreased by developing a common forum/platform with ASEAN countries. Moreover, better collaboration and partnership with ASEAN is in line with <u>India's Act East Policy.</u>
