

India's 40th World Heritage Site: Dholavira

Why in News

Recently, [UNESCO](#) has announced the Harappan city of [Dholavira](#) in Gujarat as India's **40th world heritage site**. It is the first site of [Indus Valley Civilisation \(IVC\)](#) in India to be included on the coveted list.

- With this successful nomination, India now enters the **Super-40 club for World Heritage Site inscriptions**.
- Apart from **India, Italy, Spain, Germany, China and France** have 40 or more World Heritage sites.
- India has 40 [world heritage sites](#) overall, which includes 32 cultural, 7 natural and one mixed property. [Ramappa Temple \(Telangana\)](#) was India's **39th World Heritage Site**.

Key Points

- **About Dholavira:**
 - It is one of the most remarkable and well-preserved **urban settlements** in South Asia.
 - It was **discovered in 1968 by archaeologist Jagat Pati Joshi**.
 - After **Mohen-jo-Daro, Ganweriwala and Harappa in Pakistan** and **Rakhigarhi in Haryana of India, Dholavira is the fifth largest metropolis** of Indus Valley Civilization (IVC).
 - IVC flourished around 2,500 BC, in the western part of South Asia, what today is Pakistan and Western India. It was basically an urban civilization and the people lived in well-planned and well-built towns, which were also the centers for trade.
 - The site contains ruins of an ancient IVC/Harappan city. It comprises two parts: a **walled city** and a **cemetery** to the west of the city.
 - The walled city consists of a **fortified Castle with attached fortified Bailey and Ceremonial Ground**, and a **fortified MiddleTown and a Lower Town**.
 - A series of **reservoirs** are found to the east and south of the Citadel.

▪ Location:

- The ancient city of Dholavira is an archaeological site at **Kachchh District**, in the state of Gujarat, which dates from the 3rd to mid-2nd millennium BCE.
- Dholavira's **location is on the Tropic of Cancer**.
- It is located on Khadir bet island in the [Kachchh Desert Wildlife Sanctuary](#) in the [Great Rann of Kachchh](#).
- Unlike other **Harappan antecedent towns normally located near to rivers and perennial sources of water**, the location of Dholavira in the **island of Khadir bet**.

- This was **strategic to harness different mineral** and raw material sources (copper, shell, agate-carnelian, steatite, lead, banded limestone, among others).
- It also facilitated internal as well as **external trade to the Magan (modern Oman peninsula) and Mesopotamian** regions.

▪ Archeological Findings:

- Artifacts that were found here include **terracotta pottery, beads, gold and copper ornaments, seals, fish hooks, animal figurines, tools, urns**, and some imported vessels.
- Remains of a copper smelter indicate Harappans, who lived in Dholavira, **knew metallurgy**.
- It is believed that traders of Dholavira used to **source copper ore from present-day Rajasthan and Oman and UAE** and **exported finished products**.
- It was also a **hub of manufacturing jewellery** made of shells and semi-precious stones, like agate and used to export timber.
- **10 large stone inscriptions**, carved in Indus Valley script, perhaps the world's earliest sign board.
- Near the ancient city is **a fossil park where wood fossils are preserved**.
- Unlike graves at other IVC sites, **no mortal remains of humans** have been discovered at Dholavira.

▪ Distinct Features of the Dholavira Site:

- **Cascading series of water reservoirs**.
- Outer **fortification**.
- **Two multi-purpose grounds**, one of which was used for festivities and other as a

marketplace.

- **Nine gates** with unique designs.
- Funerary architecture featuring tumulus — **hemispherical structures like the Buddhist Stupas.**
- Multi-layered defensive mechanisms, extensive use of stone in construction and special burial structures.

▪ **Decline of Dholavira:**

- Its decline also **coincided with the collapse of Mesopotamia**, indicating the **integration of economies.**
 - Harappans, who were maritime people, **lost a huge market**, affecting the **local mining, manufacturing, marketing and export businesses** once Mesopotamia fell.
- Dholavira entered a phase of **severe aridity** due to climate change and rivers like **Saraswati drying up.**
 - Due to a drought-like situation, people started **migrating toward the Ganges valley** or towards south Gujarat and further beyond in Maharashtra.
- Further, the Great Rann of Kutch, which surrounds the Khadir island on which Dholavira is located, used to be navigable, but the sea receded gradually and the **Rann became a mudflat.**

Other Harappan Sites in Gujarat

- **Lothal:** Before Dholavira was excavated, Lothal, in Saragwala village on the **bank of Sabarmati** in Dholka taluka of Ahmedabad district, was the most prominent site of IVC in Gujarat.
 - It was excavated between 1955 and 1960 and was discovered to be an important port city of the ancient civilisation, with structures made of mud bricks.
 - From a graveyard in Lothal, 21 human skeletons were found.
 - Foundries for making copperware were also discovered.
 - Ornaments made of semi-precious stones, gold etc. were also found from the site.
- **Rangpur** on the **bank of Bhadar river** in Surendranagar district was the first Harappan site in the state to be excavated.
- **Rajdi** in Rajkot district, **Prabhas** near Veraval in Gir Somnath district.
- **Lakhabaval in Jamnagar**, and **Deshalpar in Bhuj** taluka of Kutch are among other Harappan sites in the state.

Other World Sites in Gujarat

- Other than Dholavira, there are 3 UNESCO World Heritage Sites in Gujarat.
 - Historic city of Ahmedabad
 - **Rani ki Vav, Patan**
 - Champaner & Pavagadh
