

World Economic Outlook: IMF

GDP growth (Estimates/Projections : In %)				
IMF	(-) 8.0	11.5		
FITCH	(-) 9.4	11		
OECD	(-) 9.9	8		
UBS	(-) 7.5	11		
S&P	(-) 7.7	10		

Why in News_//_

Recently, the latest <u>World Economic Outlook</u> of the <u>International Monetary Fund (IMF)</u> has estimated that India's <u>Gross Domestic Product (GDP)</u> will grow by **11.5%** in the <u>Financial Year</u> (FY) 2021-22.

Key Points

- India Specific Projections:
 - FY 2020-21: For the current fiscal, the IMF had forecast a record 10.3% contraction.
 - **FY 2021-22:** For the next fiscal, starting from April 1st, GDP growth projection is at **11.5**%, 2.7% higher than the projection made in October, 2020.
 - Last October, the IMF had projected an 8.8% real GDP growth for India in FY 2021-22, highest globally.
 - FY 2022-23: In FY 2022-23, the economy will likely grow 6.8%.
- Governments Projection for 2020-21:
 - The latest revision for the current fiscal is higher than the **government's first advance estimate of 7.7%** and also the **RBI's estimate of 7.5%**.
- Reason for Increase in the Estimates by IMF:
 - India has taken very decisive action, very decisive steps to deal with the **pandemic** and to deal with the economic consequences of it.
- Government Measures to Deal With the Pandemic:
 - Reserve Bank of India's Covid19 Economic Relief Package
 - Pradhan Mantri Garib Kalyan Yojana: The government announced Rs 1.70 lakh crore relief package under the newly framed <u>Pradhan Mantri Garib Kalyan Yojana</u> for the poor to help them fight the battle against covid-19.

- Atmanirbhar Bharat Abhiyan (or Self-reliant India Mission): The Self-Reliant India Mission aims towards cutting down import dependence by focussing on substitution while improving safety compliance and quality goods to gain global market share.
 - Government announced <u>liquidity measures for businesses</u>, <u>especially Micro</u>, <u>Small and Medium enterprises (MSMEs)</u> under the Atmanirbhar Bharat Abhiyan.

OVERVIEW OF WORLD ECONOMIC OUTLOOK PROJECTIONS

	YEAR-OVER-YEAR (% CHANGE) PROJECTIONS	
Nation		
	2021	2022
The United States	5.1	2.5
Germany	3.5	3.1
The UK	4.5	5.0
China	8.1	5.6
India*	11.5	6.8

*For India, data and forecasts are presented on a fiscal year basis and GDP from 2011 onward is based on GDP at market prices with fiscal year 2011/12 as a base year; source: IMF

Global Projections:

- Global Economy:
 - The global economy is projected to grow 5.5% in 2021 and 4.2% in 2022.
 - The IMF also saw a narrower 3.5% contraction in world output in 2020 as opposed to a 4.4% decline seen earlier.
 - It attributed the 0.3% point upward revision for 2021 to "expectations of a vaccine-powered strengthening of activity later in the year and additional policy support in a few large economies.
- Global Trade Volumes:
 - They are forecasted to grow about 8% in 2021.
 - The IMF expects **oil prices to rise** in 2021 by just over 20% from the low base for 2020 but they will still remain well below their average for 2019.
 - Non-oil commodity prices are also expected to increase with those of metals, in particular, projected to accelerate strongly in 2021.
- Other Economies with High percentage of Growth:
 - China would grow 8.1% in 2021, followed by Spain (5.9%) and France (5.5%).
 - China, which was the only major country to register a growth rate of 2.3 % in 2020, will expand 5.6% in 2022.
- Increased Inequality:
 - The report highlighted the pandemic-induced acceleration in inequality by reiterating
 that close to 90 million people are likely to fall below the extreme poverty
 threshold during 2020-21 as workers with less education, women, youth, those in
 contact-intensive sectors, and those informally employed suffer disproportionate livelihood
 and income losses.
 - The pandemic is expected to reverse the progress made in poverty reduction across the past two decades.

It can be noted that recently, the <u>Inequality Virus Report</u>, released by <u>Oxfam</u>
 <u>International</u>, has also found that the <u>Covid pandemic deeply increased the existing inequalities in India and around the world.

</u>

International Monetary Fund

- The IMF was set up along with the <u>World Bank</u> after the <u>Second World War</u> to assist in the reconstruction of war-ravaged countries.
 - The two organisations were agreed to be set up at a conference in Bretton Woods in the US. Hence, they are known as the **Bretton Woods twins**.
- Created in **1945**, the IMF is governed by and accountable to the **189 countries** that make up its near-global membership.India joined on December 27, 1945.
- The IMF's **primary purpose** is to ensure the stability of the international monetary **system** the system of exchange rates and international payments that enables countries (and their citizens) to transact with each other.
 - The Fund's mandate was updated in 2012 to include all macroeconomic and financial sector issues that bear on global stability.
