Why in News?

- Recently, the [Centre's fiscal deficit](#) in the **first four months of 2023-24** touched **33.9%** of the **full-year target**.
 - In the [Union Budget](#), the government projected to bring down the **fiscal deficit** to **5.9%** of the [gross domestic product \(GDP\)](#) in the **current FY**.
 - The **deficit** was **6.4%** of the **GDP** in **2022-23** against the earlier estimate of 6.71%.

What is Fiscal Deficit?

- **About:**
 - **Fiscal deficit** is the **difference** between the **government's total expenditure** and its **total revenue** (excluding borrowings).
 - It is an indicator of the extent to which the government must borrow in order to finance its operations and is expressed as a percentage of the country's GDP.
- **High and Low FD:**
 - A **high fiscal deficit** can lead to [inflation](#), [devaluation of the currency](#) and an increase in the **debt burden**.
 - While a **lower fiscal deficit** is seen as a **positive sign** of **fiscal discipline** and a **healthy economy**.
- **Positive Aspects of Fiscal Deficit:**
 - **Increased Government Spending:** **Fiscal deficit** enables the government to increase spending on **public services**, [infrastructure](#), and **other important areas** that can stimulate **economic growth**.
 - **Finances Public Investments:** The government can finance **long-term investments**, such as **infrastructure projects**, through **fiscal deficit**.
 - **Job Creation:** Increased government spending can lead to **job creation**, which can **help reduce unemployment** and **increase** the standard of living.
- **Negative Aspects of Fiscal Deficit:**
 - **Increased Debt Burden:** A persistent **high fiscal deficit** leads to an increase in government debt, which puts pressure on future generations to repay the debt.
 - **Inflationary Pressure:** **Large fiscal deficits** can lead to an increase in **money supply** and **higher inflation**, which reduces the [purchasing power](#) of the general public.
 - **Crowding out of Private Investment:** The government may have to borrow heavily to finance the **fiscal deficit**, which can lead to a **rise in interest rates**, and make it difficult for the private sector to access credit, thus crowding out private investment.

- **Balance of Payments Problems:** If a country is running large **fiscal deficits**, it may have to borrow from **foreign sources**, which can lead to a decrease in **foreign exchange reserves** and put pressure on the **balance of payments**.
