

Venkateshwara's MOU with Brazil | Uttar Pradesh | 27 Jul 2024

Why in News?

Recently, **Shri Venkateshwara University located in Meerut** has signed an **MoU (Memorandum of Understanding)** with **Brazil** to **promote educational and research collaborations** of the students of the two countries.

Key Points

- The focus will be on **student and faculty exchange programs** in the fields of [dairy](#), [agriculture](#), [biotechnology](#), **health** and [tourism](#).
 - Both nations will **collaborate on advanced technologies and innovations** through joint seminars, workshops, and regular classes.
 - This partnership is considered a substantial step forward in offering **students high-quality higher education and international experiences**.
-

IIT-Kanpur Professor Discovered Exoplanet | Uttar Pradesh | 27 Jul 2024

Why in News?

An **international team of astronomers**, including an **assistant professor in the Department of Space, Planetary & Astronomical Sciences & Engineering (SPASE)** at [IIT-Kanpur](#), has **discovered a large exoplanet** revolving around a nearby star that is similar to our Sun.

Key Points

- According to the **scientific journal Nature**, the extrasolar planet known as **Epsilon Indi Ab, or Eps Ind Ab**, is classified as a 'super-Jupiter' due to its **mass being at least six times greater than that of Jupiter**.
 - Eps Ind Ab is the **first mature exoplanet** (a planet outside our solar system) to be discovered using the direct imaging technique.
- Using the [James Webb Space Telescope's Mid-Infrared Instrument](#), the international team of astronomers has **directly imaged a new exoplanet orbiting the K5V-type star Epsilon Indi A** (also known as HD 209100 or HI).
 - The direct imaging of a nearby mature exoplanet represents a significant milestone in the field of space exploration.
- The recently identified **planet is situated 12 light-years from the Earth and is frigid, with a temperature around -1°C (30°F)**.
 - Its **orbit** is also tremendous, revolving around its star at a distance **28 times greater**

than the distance between the Earth and the Sun.
