

## Stampede at Temple in Bihar

## Why in News?

Recently, several people died after a <u>stampede</u> occurred at **Baba Siddhnath Temple** in Makhdumpur, located in the **Jehanabad district** of Bihar.

## **Key Points**

- The incident was reportedly sparked by a **dispute among**kanwariyas and flower vendors near the temple entrance.
- Local authorities are investigating the cause, and financial assistance has been announced for the families of the victims.

## Stampede

- About:
  - A stampede is an impulsive mass <u>movement of a crowd</u> that often results in injuries and deaths.
  - It is often **triggered by response to a perceived danger**, loss of physical space and a collective will to attain something seen as gratifying.
- Types:
  - Two main types of stampedes are Unidirectional stampedes occur when a crowd moving in the same direction encounters a sudden change in force, triggered by forces like sudden stops or negative forces like broken barriers.
  - **Turbulent stampedes** happen in situations with uncontrolled crowds, induced panic, or crowds merging from multiple directions.
- Fatalities in Stampedes:
  - Stampedes can cause fatalities through:
    - Traumatic Asphyxia: It is the most common cause that occurs due to external compression of the thorax or upper abdomen. Can happen even in moderate crowds of 6-7 people pushing in one direction.
    - Other causes: Myocardial infarction (heart attack), Direct crushing injuries to internal organs, Head injuries and Neck compression.
