

# Ayushman Bharat-Pradhan Mantri Jan Arogya Yojana

For Prelims: Ayushman Bharat-Pradhan Mantri Jan Arogya Yojana, Comptroller and Auditor-General of India (CAG), Socio-Economic Caste Census (SECC), Health Insurance Scheme.

For Mains: Ayushman Bharat-Pradhan Mantri Jan Arogya Yojana, Issues with it and Way forward.

### **Source: TH**

### Why in News?

Recently, The <u>Comptroller and Auditor-General of India's (CAG)</u> performance audit report flagged irregularities in the <u>Ayushman Bharat-Pradhan Mantri Jan Arogya Yojana (PMJAY)</u>.

# What are the Issues Highlighted By CAG?

### Treatment of Dead Patients:

- The patients earlier shown as "dead" continued to avail treatment under the scheme.
  - The maximum number of such cases were in Chhattisgarh, Haryana, Jharkhand and minimum number of such cases were from Andaman & Nicobar Islands, Assam and Chandigarh.
- 88,760 patients died during treatment specified under the Scheme. A total of 2,14,923 claims shown as paid in the system, related to fresh treatment in respect of these patients.

### Unrealistic Household Sizes:

- There are instances where the registered household sizes were unrealistically large, ranging from 11 to 201 members.
  - Such discrepancies suggest a lack of proper validation controls during the beneficiary registration process.

### Pensioners Availing Benefits:

- Pensioners in certain states were found to possess PMJAY cards and were availing treatment under the scheme.
  - Delayed actions to remove ineligible beneficiaries from the scheme led to ineligible individuals receiving benefits under the PMJAY.

#### Bogus Mobile Number and Aadhaar:

- It revealed that some beneficiaries were registered with a single bogus mobile number, potentially compromising the verification process.
- Similarly, some Aadhaar numbers were linked to multiple beneficiaries, raising questions about proper verification.

### Systemic Failures:

- CAG's report unearthed systemic issues, including private hospitals performing public hospital-reserved procedures, infrastructural inadequacies, equipment shortages, and medical malpractice cases.
  - Absence of adequate validation controls, invalid names, unrealistic date of birth, duplicate PMIAY IDs.
- In several States and UTs, the available equipment in empanelled hospitals were found to

be non-functional.

### Pending Penalties:

- The report flagged pending penalties of Rs 12.32 crore from **100 hospitals across nine**
- Issue of data collection in the Scheme:
  - It is possible that some random ten-digit number was entered by the field level workers in some cases.
    - Further, necessary changes have been made in the **current IT portal used by the National Health Authority (NHA)** to capture only valid mobile numbers, in case the same is possessed by the beneficiary.

# What are the Clarifications Provided by the Government?

#### Mobile Numbers and Verification:

- The Ministry of Health clarified that mobile numbers were not used for beneficiary verification.
  - The scheme primarily identifies beneficiaries through Aadhaar-based e-KYC, and the mobile numbers were used for communication and feedback purposes rather than for verification.

### Authentication Options:

- NHA provided multiple options for beneficiary verification, including fingerprint, iris scan, face authentication, and OTP.
  - Fingerprint-based authentication is commonly used and helps ensure the accuracy of beneficiary verification.

# What is Ayushman Bharat-PMJAY?

#### About:

- PM-JAY is the world's largest health insurance scheme fully financed by the government.
- Launched in February 2018, it offers a sum insured of Rs.5 lakh per family for secondary care and tertiary care.
  - Health Benefit Packages covers surgery, medical and day care treatments, cost of medicines and diagnostics.

lision

### Beneficiaries:

- It is an entitlement-based scheme that targets the beneficiaries as identified by latest **Socio-Economic Caste Census (SECC)** data.
  - The National Health Authority (NHA) has provided flexibility to States/UTs to use non- Socio-Economic Caste Census (SECC) beneficiary family databases with similar socio-economic profiles for tagging against the leftover (unauthenticated) SECC families.

### Funding:

 The funding for the scheme is shared – 60:40 for all states and UTs with their own legislature, 90:10 in Northeast states and Jammu and Kashmir, Himachal and Uttarakhand and 100% Central funding for UTs without legislature.

#### Nodal Agency:

- The <u>National Health Authority (NHA)</u> has been constituted as an autonomous entity under the Society Registration Act, 1860 for effective implementation of PM-JAY in alliance with state governments.
- The **State Health Agency (SHA)** is the apex body of the State Government responsible for the implementation of AB PM-IAY in the State.

### **Way Forward**

• The PMJAY's irregularities **demand corrective measures**, including stringent beneficiary verification, hospital oversight, and a robust grievance redressal mechanism to ensure the

scheme's intended effectiveness.
