

## e-Courts Integrated Mission Mode Project

**For Prelims:** Supreme Court, e-Filing, e-Courts Integrated Mission Mode Project, National Judicial Data Grid (NJDG)

**For Mains:** Digitisation of Indian Judiciary: Challenges associated, Solutions

### Why in News?

The Government of India has **launched the e-Courts Integrated Mission Mode Project** in the country for computerization of District and subordinate courts **with the objective of improving access to justice using technology.**

### What is e-Courts Integrated Mission Mode Project?

#### ▪ About & Implementation:

- As part of the [National e-Governance](#) Plan, the **project is under implementation since 2007 for Information and Communications Technology (ICT) development** of the [Indian Judiciary](#)
- e-Courts project is being **implemented in association with e-Committee Supreme Court of India and the Department of Justice.**

#### ▪ Phases:

- **Phase I:** It was implemented during 2011-2015.
- **Phase II:** It was started in 2015 under which various District & Subordinate courts have been computerised.

### What are the Initiatives Taken Under the Project?

- **Improvisation of Network:** Under the **Wide Area Network (WAN) Project**, connectivity has been provided to 99.4% of total Court Complexes across India with an improved **bandwidth** speed.
- **Open-Source Software:** Case Information Software (CIS) is based on **Free and Open-Source Software (FOSS)** which has been **developed by National Informatics Centre (NIC).**
- **NJDG Database:** [National Judicial Data Grid \(NJDG\)](#) is a database of orders, judgments, and cases, created as an online platform under the eCourts Project.
  - It provides information relating to judicial proceedings/decisions of all computerized district and subordinate courts.
- **Access to Case Status Information:** [Open Application Programming Interfaces \(APIs\)](#) have been introduced in 2020 to allow Central and State Governments and institutional litigants including local bodies to access NJDG data to **improve pendency monitoring and compliance.**
  - **7 platforms have been created to provide real-time information** on case status, cause lists, judgements, etc. to lawyers/Litigants.
  - In addition, **Electronic Case Management Tools (ECMT)** have been created with Mobile Apps for lawyers and judges.
- **Virtual Courts:** 21 [Virtual Courts](#) in 17 States/UTs have been operationalized to handle traffic

challan cases.

- More than 2.40 crore cases have been handled by 21 virtual courts.
- **Video-Conferencing (VC):** [Video-conferencing \(VC\)](#) facilities have also been enabled between court complexes and corresponding jails.
  - The Supreme Court emerged as a **global leader by conducting lakhs of hearings.**
- **E-filing:** New e-filing system has been rolled out for the electronic filing of legal papers with upgraded features. As of 2022, **a total of 19 High Courts have adopted the model rules of e-Filing.**
- **Regarding Summons:** [National Service and Tracking of Electronic Processes \(NSTEP\)](#) has been launched for technology enabled process serving and issuing of summons.
  - It has currently been implemented in 28 States/ UTs.
- **User-friendly Portal:** A new **“Judgment Search” portal** has been started with several user-friendly features. This facility is being provided free of cost to everyone.
- **Creating Awareness:** Towards creating widespread awareness and familiarization of eFiling and eCourts services, manuals and brochures have been **made available in English, Hindi and 11 regional languages** for the use of lawyers.

## What’s New about Phase III?

- **Phase III of the e-Courts Project:**
  - Draft Vision Document for **e-Courts Project Phase III** has been finalized and approved by eCommittee, Supreme Court of India.
  - It **mentions a judicial system that is** more affordable, accessible, cost-effective, predictable, reliable, and transparent for every individual who seeks justice or is part of the delivery of justice in India.
- **Phase III Mentions Various New Features:**
  - Digital and Paperless Courts aimed at bringing court proceedings under a digital format in a court;
  - Online Court focussing on eliminating the presence of litigants or lawyers in the court;
  - Expansion of the scope of Virtual Courts beyond adjudication of Traffic Violations;
  - Use of emerging technologies like [Artificial Intelligence \(AI\)](#) and its subsets like [Optical Character Recognition \(OCR\)](#) etc for analysis of case pendency, forecasting future litigation, etc.

## What are the Related Concerns and Solutions?
