

Krishi UDAN 2.0

Why in News

Recently, the **Union Minister of Civil Aviation** has released **Krishi Ude Desh Ka Aam Naagrik (UDAN) 2.0** to facilitate movement of agricultural produce by air.

- It lays out the vision of improving value realization through better integration and optimization of agri-harvesting and air transportation and contributing to agri-value chain sustainability and resilience under different and dynamic conditions.
- Earlier, ahead of <u>UDAN Day</u> (21st October), the Ministry of Civil Aviation <u>flagged off 6 routes</u>, expanding the aerial connectivity of North-East India, under the <u>UDAN Scheme</u>.

Key Points

- About:
 - Krishi UDAN was launched in August 2020, on international and national routes to assist farmers in transporting agricultural products so that it improves their value realisation.
 - Krishi UDAN 2.0 will focus on transporting perishable food products from the hilly areas, northeastern states and tribal areas.
 - It will be **implemented at 53 airports across the country** mainly focusing on northeast and tribal regions and is likely to benefit farmers, freight forwarders and airlines.
 - Opted airports not only provide access to regional domestic markets but also connect them to international gateways of the country.
- Main Features:
 - Waiver:
 - Facilitate and incentivize movement of agri-produce by air transportation by giving a full waiver of landing, parking, Terminal Navigation and Landing Charges and Route Navigation Facilities Charges for domestic airlines.
 - Hub and Spoke Model:
 - Strengthen Cargo related infrastructure at airports and off airports by facilitating the development of a hub and spoke model and a freight grid.
 - The hub and spoke model refers to a distribution method in which a centralized "hub" exists.
 - Resource Pooling:
 - Resources-Pooling through **establishing a convergence mechanism i.e. collaboration with other government** departments and regulatory bodies.
 - It will provide freight forwarders, airlines and other stakeholders with Incentives and concessions to enhance air transportation of Agri-produce.

• E-KUSHAL:

- An online platform named E-KUSHAL (Krishi Udaan for Sustainable Holistic Agri-Logistics) would also be developed to facilitate information dissemination to all stakeholders regarding the transportation of agricultural produce.
- The ministry has also proposed **convergence of E-KUSHAL** with the **National Agriculture Market (e-NAM).**
- Expected Benefits:
 - New Avenues of Growth for Agriculture:
 - This scheme will open up **new avenues of growth** for the agriculture sector and help attain the goal of <u>doubling farmers' income</u> by removing barriers in supply chain, logistics and transportation of farm produce.
 - Decrease Food Wastes:
 - It will help solve the problem of wastage of agricultural food wastes in the country.
- Other Initiatives Related to Farmers:
 - Pradhan Mantri Krishi Sinchayee Yojana (PMKSY)
 - Green India Mission
 - Soil Health Card (SHC)
 - Paramparagat Krishi Vikas Yojana (PKVY)
 - Rainfed Area Development (RAD)
 - Sub-mission on AgroForestry (SMAF)
 - Mission Organic Value Chain Development for North Eastern Region (MOVCDNER).

Convergence of Agriculture and Aviation

- The convergence between the two sectors (A2A Agriculture to Aviation) is possible because of three primary reasons:
 - Evolutionary possible use of <u>biofuel</u> for aircraft in future
 - Use of <u>drones</u> in the agriculture sector
 - Due to greater integration and value realisation of agricultural products through schemes like Krishi UDAN.
