

# Rakhigarhi to be Developed as an Iconic Site

# Why in News

Union Budget (2020-21) has proposed to develop **Rakhigarhi** (Hisar district, Haryana) as an iconic site.

 4 other archaeological sites in Hastinapur (Uttar Pradesh), Shivsagar (Assam), Dholavira (Gujarat) and Adichanallur in (Tamil Nadu) will also be developed as iconic sites with onsite museums.

# Rakhigarhi

- Rakhigarhi is the largest Harappan site in the Indian subcontinent.
  - Other large sites of <u>Harappan civilization</u> on Indian sub-continent are <u>Harappa</u>, <u>Mohenjodaro</u> and <u>Ganveriwala</u> in <u>Pakistan</u> and <u>Dholavira</u> (<u>Gujarat</u>) in India.
- At Rakhigarhi, the excavations are being done to trace its beginnings and to study its gradual evolution from 6000 BCE (Pre-Harappan phase) to 2500 BCE.
  - The site was excavated by Amarendra Nath of ASI.

# Major Findings at the Site

#### **Settlements**

■ The archaeological excavations revealed **the mature Harappan phase** represented by planned township having **mud-brick** as well as **burnt-brick** houses with a **proper drainage system**.

## **Seals and Pottery**

- A cylindrical seal with 5 Harappan characters on one side and a symbol of an alligator on the other is an important find from this site.
- The ceramic industry represented by red ware, which included dish-on-stand, vase, perforated iar among others.

#### Other Antiquities

 Blades; terracotta and shell bangles, beads of semi precious stones, and copper objects; animal figurines, toy cart frame and wheel of terracotta; bone points; inscribed steatite seals and sealings.

#### **Rituals and Burials**

- Animal sacrificial pit lined with mud-brick and triangular and circular fire altars on the mud floor have also been excavated that signifies the ritual system of Harappans.
- The excavations have yielded a few extended burials, which certainly belong to a very late stage, maybe the medieval times.

### **Recent findings**

- Recently, a study of <u>DNA</u> from skeletal remains excavated from the Harappan cemetery at Rakhigarhi found that the people in the Harappan Civilization have an independent origin.
- This study negates the theory of the Harappans having Steppe pastoral or ancient Iranian farmer ancestry.

## **Harappan Civilization**

- It is also known as Indus Valley Civilization.
- It flourished around 2,500 BC, in the western part of South Asia, in contemporary Pakistan and Western India.
- The Indus Valley was home to the largest of the four ancient urban civilizations of Egypt, Mesopotamia, India, and China.
- In the 1920s, the Archaeological Department of India carried out excavations in the Indus valley wherein the ruins of the two old cities, viz. Mohenjodaro and Harappa were unearthed.
