 - **Fundamentalist Ideology**: He challenged the labeling of a detainee as a "fundamentalist" and clarified its meaning in context in the **August**, **2023 case**.
 - **Policeman Bail Case**: Granted bail to a policeman charged with murder due to a delayed trial, citing a violation of <u>Article 21</u>.
 - **Fahad Shah Case**: Questioned the application of <u>UAPA (Unlawful Activities Prevention Act)</u> charges against journalist Fahad Shah, noting insufficient evidence of incitement to violence.

Habeas Corpus

- It is a Latin term which literally means 'to have the body of'. Under this the court issues an order to a person who has detained another person, to produce the body of the latter before it. The court then examines the cause and legality of detention.
- This writ is a bulwark of individual liberty against arbitrary detention.
- The writ of habeas corpus can be issued against both public authorities as well as private individuals.
- The writ, on the other hand, is not issued where the:
 - detention is lawful,
 - $\circ\;$ the proceeding is for contempt of a legislature or a court,

 - detention is outside the jurisdiction of the court.
