Agni-4 Missile

Source: PIB

The **Agni-4 missile** was successfully launched from the Integrated Test Range in Chandipur, Odisha.

- The launch successfully validated all operational and technical parameters. It was conducted under the aegis of the <u>Strategic Forces Command (SFC)</u>.
- Agni-4 is fourth in the Agni series of medium to intercontinental-range ballistic missiles developed by the <u>DRDO.</u>
 - The name comes from the Sanskrit word **'Agni',** which means 'fire' and represents one of the five elements of nature.
- Agni-4 It is an intermediate-range ballistic and surface-to-surface missile, designed to be launched from the ground or sea to hit targets on the ground or sea.
- The Agni-4 missile has a range of 4,000 kilometres, a length of 20 metres, and can carry a payload of 1,000 kg.
- The SFC forms part of India's <u>Nuclear Command Authority (NCA)</u>. It is responsible for the management and administration of the country's tactical and strategic nuclear weapons stockpile.
 - The NCA comprises a Political Council chaired by the Prime Minister, which is the sole body that can authorise the use of nuclear weapons and an Executive Council chaired by the <u>National Security Advisor</u>, which provides inputs for decision-making and executes the directives given to it by the Political Council.
