World Suicide Prevention Day

Source: WHO

World Suicide Prevention Day (WSPD) is observed annually on 10th September to increase global awareness that suicide is preventable and to encourage open conversations about mental health.

- Suicide is a significant public health crisis, with over 700,000 deaths worldwide each year. It is also the third leading cause of death among 15-29-year-olds globally. This day serves as a platform to raise awareness, reduce stigma, and emphasize that suicide prevention is possible.
 - The triennial theme for <u>World Suicide Prevention Day</u> from 2024 to 2026 is "Changing the Narrative on Suicide" which urges open discussions about suicide and mental health, replacing stigma with understanding and support.
 - The first WSPD was launched in Stockholm on 10th September 2003, as an initiative by the International Association for Suicide Prevention (IASP) and the World Health Organization (WHO).
- Government Initiatives Related to Suicide Prevention:
 - Mental Healthcare Act (MHA), 2017
 - KIRAN Helpline
 - Manodarpan Initiative
 - National Suicide Prevention Strategy 2022
