

# Madhya Pradesh: Tiger State of India

### Why in News?

Madhya Pradesh has the highest tiger population in the country. Among approximately 3,800 big cats in the wild, 785 of them are in Madhya Pradesh.

Karnataka for a brief period between 2011 and 2018 had surpassed Madhya Pradesh for the most number of tigers.

### **Key Points**

- The <u>tiger census of 2022</u> put the population in the country between 3,682 and 3,925, out of which MP tops the list with 785 tigers followed by Karnataka (563), Uttarakhand (560) and Maharashtra (444) respectively.
- Jim Corbett National Park in Uttarakhand tops the list with 260 tigers amongst all the tiger reserves across the country.
  - Efforts made by stakeholders including tribals and jungle dwellers besides forest officials who made remarkable progress has also led to conservation of big cat species.
- The first tiger census was conducted in 1972, which recorded the tiger population as 1,827.
  - India's tiger population has faced severe threats due to habitat loss, poaching, and human-wildlife conflict.
  - In the early 20th century, India had a robust tiger population, but by the 1970s, their numbers had diminished alarmingly.
- In response, the government launched 'Project Tiger' in 1973, which aimed at creating a network of tiger reserves across the country to provide safe habitats for tigers and to curb poaching activities.
  - Maintaining the <u>ecological balance</u> and <u>biodiversity</u> of India's forests was also an objective of the project.

## **Tiger Reserves**

- A protected area designated for the conservation of the striped big cats (tigers) is referred to as Tiger Reserve. However, a tiger reserve may also be a national park or wildlife sanctuary.
  - For Example: The Sariska Tiger Reserve is also a <u>national park</u>. It is so because the place was originally created as a national park and **later dedicated to tiger conservation**.
- Tiger Reserves are notified by State Governments as per provisions of Section 38V of the Wildlife (Protection) Act, 1972 on advice of the National Tiger Conservation Authority.
- Presently, India accommodates **a total of 54 Tiger Reserves** (with the most recent addition being the <a href="Dholpur-Karauli Tiger Reserve">Dholpur-Karauli Tiger Reserve</a>).

- International Big Cats Alliance (IBCA): For conservation of seven big cats namely Tiger, Lion, Leopard, Snow Leopard, Cheetah, Jaguar and Puma (launched by India)

  Tx2 campaign: Launched by WWF; stands for 'Tiger times 2'
- signaling the goal to double the tiger population by 2022
- National Tiger Conservation authority (NTCA): Constituted under the WPA, 1972
- Project Tiger: Launched in 1973
- Tiger Census: Every 4 years

#### Tigers In India

- India has the largest population
   As of 2022, India has 3167 tigers
  - Largest population has been found in Central Indian Highlands & Eastern Ghats Landscape
- Tiger Reserves: India now has 53 tiger reserves
  - Ranipur in UP is the latest
     Nagarjun Sagar (Andhra Pradesh) is the largest
- while Orang (Assam) is the smallest (Core area)
