Recently, Japanese architect **Riken Yamamoto** was declared the winner of the prestigious 2024 **Pritzker Architecture Prize**, often called the "**Architecture Nobel**". This award is the highest international honour in the field. **Yamamoto is the ninth laureate from Japan**.

- The prize was established by Jay A Pritzker and his wife Cindy in 1979 to honour living architects whose work demonstrates talent, vision, and commitment to humanity and the built environment.
- Riken Yamamoto's architectural vision prioritises family and community, with a focus on the visible and tangible aspects of architecture.
 - Yamamoto's designs often incorporate innovative concepts such as "relational living" and preserving natural landscapes, as seen in projects like Hotakubo Housing and the Yokosuka Museum of Art.
- Balkrishna Doshi, is the first Indian architect to win a Pritzker Prize (2018). His renowned work is the Aranya Low-Cost Housing Complex, located in the city of Indore.
 - The complex connects a community through a cluster of buildings stitched together by a network of courtyards and pathways.
