

Construction of 1,600 MW Anpara-E will Start Soon in the State

Why In News?

In the meeting of Uttar Pradesh State Production Corporation Board on November 20, 2023, the proposal for construction of 1,600 MW new production unit Anpara E in the state has been approved. Now it will be sent to the government.

Key Points:

- The construction of Anpara- E unit is estimated to cost approximately Rs 18,624 crore. It will be set up under Meja Utpadan Nigam Limited, a joint venture between NTPC and Utpadan Nigam Limited.
- It may be noted that till now there are four units in Anpara. Of these, three units belong to the Production Corporation, whose capacity is 2630 MW. There is a 1200 MW unit of Lenco company.
- Power Corporation Chairman Dr. Ashish Kumar Goyal said that Overa C has 660-660 MW new units and Jawaharpur has 660-660 MW new units. Electricity production will start soon in one unit each at both these places. One unit each at both the places is under construction. Similarly, a 660 MW unit of Panki will also start producing electricity during summer.
