

## PepsiCo India Establishing Flavor Plant in Madhya Pradesh

## Why in News?

Recently, <u>PepsiCo India</u> announced to invest Rs 1,266 crore to set up a flavour manufacturing facility at Ujjain in Madhya Pradesh as part of its expansion plans in the country.

## **Key Points**

- The plant, spread over 22 acres, will play a significant role in scaling up PepsiCo's beverage production in India, generating employment and positively impacting the local economy.
  - The construction of the upcoming plant is slated to start in 2024 and is expected to be operational in the first quarter of 2026.
  - The new unit will be the company's second flavour manufacturing facility in India.
     PepsiCo's first flavour manufacturing facility is in Channo, Punjab.
- PepsiCo India said in line with its global sustainability goals, the new manufacturing facility
  will operate entirely on renewable energy sources leading to a reduction in carbon footprint
  by an impressive 1.9 metric tonne per day.
- With zero liquid discharge technology, the plant aims to achieve approximately 90% overall water efficiency, ensuring responsible management of water resources, and replenishing 100% of the water used at the facility.

**Note:** The components of Zero Liquid Discharge (ZLD), including **reverse osmosis**, enable extensive reuse and recovery of water and salts, and the process minimizes the freshwater requirements.
