

21st Livestock Census

Source: PIB

Recently, the **Department of Animal Husbandry & Dairying (DAHD**) hosted a workshop for the upcoming 21st<u>Livestock Census</u> scheduled for **September to December 2024.**

- This aimed to equip State and Union Territory officers with the necessary tools, including amobile app and software, for efficient data collection during the census.
- Officials were trained on data collation strategies and familiarized with various registered breeds of livestock.
- A livestock census has been conducted across the country every 5 years since 1919.
 - As per the 20th Census conducted in 2019, total Livestock population in India is 535.78 million.
 - The total Bovine population (Cattle, Buffalo, Mithun and Yak) was 302.79 Million.
- For development of livestocks, the <u>National Livestock Mission (NLM)</u> scheme launched in the 2014-15 consists of 3 sub-missions as <u>Breed Development of Livestock & Poultry</u>, Feed & Fodder Development and Innovation & Extension.
