World Toilet Day

Source: PIB

World Toilet Day, observed annually (since 2013) on **19th November**, is a **United Nations** initiative raising awareness about the **global sanitation crisis and promoting safe, accessible toilets** as part of **Sustainable Development Goal 6: Ensuring water and sanitation for all by 2030.**

- 2024 Theme: 'Toilets-A Place for Peace' which emphasises that billions of people face heightened threats to sanitation due to conflict, <u>climate change, natural disasters</u>, and systemic neglect.
- Global Sanitation Crisis: 3.5 billion people lack safely managed sanitation, and 419 million still practise open defecation, contributing to health risks such as <u>cholera</u>.
 - The <u>World Health Organization (WHO)</u> in 2023 reported that unsafe water, sanitation, and hygiene are responsible for approximately **1,000 deaths of children under the age** of five every day, and improved sanitation could potentially save **1.4 million lives** annually.
- India's Efforts for Safe Sanitation: India launched the "Hamara Shauchalay: Hamara Samman" campaign, linking sanitation with human rights, dignity, and privacy, particularly for women and girls.
 - Swachh Bharat Mission (SBM) (Grameen): 75% of villages in India achieved Open Defecation Free(ODF) Plus(+) status under Phase II of the SBM Grameen.
 - SBM-Urban: 63.63 lakh household latrines and 6.36 lakh community toilets were constructed under <u>SBM-Urban.</u>
 - 93% of women in ODF regions reported **enhanced feelings of security and dignity.**
