

## Securitypedia

The <u>Central Industrial Security Force (CISF)</u> has launched an **online encyclopedia** called **Securitypedia**.

- Securitypedia is a website which incorporates a wide range of security related issues, best practices and latest technologies (in the domain of security) available across the world.
- It is not just a static website containing data archives but is more of a dynamic platform where a force member can contribute by writing blogs on relevant security related professional issues.
  - Just like Wikipedia, any member could post information or edit articles after citing authentic and verifiable sources.
- As a supplement to Securitypedia, CISF has also developed CISF Tube which is an online video database of all videos relevant to CISF.
- The videos available on CISF Tube enables CISF personnel to learn on various subjects related to their area of functioning.
