

## Mukhyamantri Gramin Setu Nirman Yojana

## Why in News?

Recently, the Bihar government approved the "Mukhyamantri Gramin Setu Nirman Yojana" (MGSNY) to boost rural infrastructure through the construction of small bridges in the state.

## **Key Points**

- Objective of the Scheme:
  - The "Mukhyamantri Gramin Setu Nirman Yojana" (MGSNY) aims to enhance connectivity in **rural Bihar.**
  - The scheme is focused on constructing **1,000 small bridges** across various rural areas.
- Target Areas:
  - The initiative prioritizes remote and rural regions that face difficulties due to inadequate infrastructure.
  - It is expected to address the issue of inaccessibility during monsoon seasons, when rivers and streams overflow and disconnect villages.
- Expected Benefits:
  - The bridges will significantly improve transportation for rural populations, enabling easier movement of goods and people.
  - Enhanced infrastructure will contribute to **economic development** in rural areas by connecting **farmers**, **traders**, **and service providers to markets**.
  - It will also improve **access to education and healthcare**, ensuring quicker and more reliable transit for school children and patients in need of urgent medical care.
