

GST Revenue Collection for April 2024

Source: TH

The <u>Gross Goods and Services Tax (GST)</u> **collections** hit a record high in April 2024 at Rs 2.10 lakh crore. This represents a significant **12.4% year-on-year growth**, driven by a strong increase in **domestic transactions (up 13.4%) and imports (up 8.3%).**

- After accounting for refunds, the net GST revenue for April 2024 stands at Rs 1.92 lakh crore, reflecting an impressive 15.5% growth compared to the same period of 2023.
- Finance Minister attributed this surge to the strong momentum in the economy and efficient tax collections, with no dues pending on account of IGST (Integrated GST) settlement to the States
- GST compensation cess collections also hit an all-time high of Rs 13,260 crore,
 - Introduced for five years to compensate States for revenue losses due to the 2017 switch to the GST regime, the cess is now being used to repay loans taken during the pandemic to compensate States amid a lockdown-triggered collapse in revenues.
- Mizoram reported the highest growth at 52%, followed by Assam at 25%, and Delhi, Bihar, and Goa at 23% rise in revenues.

What is it?

- GST aims to stitch together a common market by dismantling fiscal barriers between states
- It is a single national uniform tax levied across the country on all goods and services

Present Situation

 The Centre and states levy multiple taxes such as excise duty, octroi, central sales tax (CST), value-added tax (VAT) and entry tax, among others

Why amend the Constitution?

- Under current laws, only the Centre can impose taxes on services
- GST will empower states to collect service taxes

What about tax rates?

- There has been no agreement yet on tax rates for various goods and services
- States want the rate to provide relief to common citizens and small businessmen while preventing loss of revenue for states
- A panel headed by chief economic adviser Arvind Subramanian has recommended a revenue-neutral rate of 15% to 15.5%, with a standard rate of 18%
- The revenue-neutral rate is the rate at which there will be no revenue loss to the Centre and states under GST.

Compensating states

- States want 100% compensation for the first five years, and want this specified in the main law through "fool proof" wording
- In the original Bill, the Centre had proposed 100% compensation for first three years, and 75% and 50% for the next two years, respectively
- The Centre has acceded to the states' demand and modified the Constitution Amendment Bill

Inter-state movements

- The Centre would collect the Integrated Goods and Services Tax (IGST) on inter-state supplies
- IGST has been designed to ensure seamless flow of input tax credit from one state to another
- The IGST rate would roughly be equal to CGST plus SGST

What next

• More discussion on rates in the months ahead

What Happens After

GST

1. GST will replace

the SGST and CGST rates
2. States & the Centre will collect identical rates of

3. E.g. If 18% is

the GST rate,

states and the

Centre will get 9% each, called

Central Taxes

The Centre levies various taxes currently. GST will subsume all

- Countervailing Duty
- Additional Excise D
- Central Excise Duty
- Additional Customs Duty
- Cesses and Surcharges
- Special Additional Customs

50% Centre

State Taxes

all local and

taxes with a

single tax.

central indirect

Different states, different taxes. All these will be replaced by one indirect tax

taxes

- Vat/sales Tax
- Local Taxes
- Purchase Tax
- Tax on Lottery and Betting
- Mandi Tax/Other State-Specific Local
- Entertainment Tax
- Tax on Inter-State Sales
- Luxury
- Octroi/ Entry Tax

50% State

- Rates may be specified in subordinate legislation-SGST law, CGST law by later this year.
- It backbone GST Network (GSTN) to be tested after rates are finalised; GSTN will enable real-time tax returns, registrations, input credit etc.

Price impact

- The impact on prices is unknown
- Experts say GST will make most services costlier
- The 13th Finance Commission estimates prices of agricultural goods will increase by 0.61% to 1.18%, while prices of manufactured items will fall by 1.22% to 2.53%
- It will lower the overall tax inputs and make exports competitive

Timeline

2006-07: The govt moots a proposal for GST in the Budget; negotiations with states begin

2008: The govt. constitutes the empowered committee (EC) of state finance ministers 2009: The committee releases its first discussion paper

2011: The UPA govt. introduces the Constitution Amendment Bill for GST in Lok Sabha (LS)
