

# **Vizhinjam Port Project**

For Prelims: Adani port in Vizhinjam, PPP

For Mains: Issues and Challenges in Development Projects in India

#### Why in News?

Recently, Adami Group approached the Kerala High Court requesting the security cover of central forces in its **port construction site in Vizhinjam** which was marred by violent protests by the Fishermen.

### What is the Vizhinjam Port Project?

- About:
  - It is a Rs 7,525 crore port, being built under a **Public Private Partnership (PPP) model** with Adani Ports Private Limited at Vizhinjam near Thiruvananthapuram, Kerala.
  - It was laid in December 2015 and has since missed its completion deadline.
  - The port is to have 30 berths, and will be able to handle giant "megamax" container ships.
- Significance:
  - It is believed that the ultramodern port, located close to major international shipping routes, will boost India's economy and its location is also of strategic importance.
  - The port is expected to compete with Colombo, Singapore, and Dubai for a share of trans-shipment traffic.
  - The port's advantages are "availability of a 20m contour within one nautical mile from the coast, minimal littoral drift along the coast, hardly any maintenance dredging required, links to national/regional road, rail network, and proximity to international shipping routes.

# Why are Fishermen Protesting?

- Fisherfolk have been protesting against the project for the past four months, alleging that its construction is causing massive sea erosion, taking away their livelihood and dwellings.
- They want an impact study conducted and the project to remain suspended until the study report comes out.
- The fishing community has also put forward six other demands:
  - Rehabilitation of families who lost their homes to sea erosion
  - Effective steps to mitigate coastal erosion
  - Financial assistance to fisherfolk on days weather warnings are issued
  - compensation to families of those who lose their lives in fishing accidents
  - Subsidised kerosene
  - A mechanism to **dredge the Muthalappozhi fishing harbour** in Anchuthengu in Thiruvananthapuram district.
- The kerosense subsidy has been demanded by claiming that because of the project, **fishermen** have to venture deeper into the ocean for catch, increasing the fuel cost burden.

## **UPSC Civil Services Examination, Previous Year Question (PYQ)**

Q. Recently, which of the following States has explored the possibility of constructing an artificial inland port to be connected to sea by a long navigational channel? (2016)

- (a) Andhra Pradesh
- (b) Chhattisgarh
- (c) Karnataka
- (d) Rajasthan

Ans: (d)

### Exp:

- The State of Rajasthan is developing an artificial inland port in Jalore which would be connected to the Arabian Sea by developing a channel along the Kutch Creek.
- The Inland Waterway Authority of India (IWAI) proposed to guide and support the Rajasthan government for building this port.
- Therefore, option (d) is the correct answer.
