

## **Greater Spotted Eagles**

## Source: DTE

A recent report revealed that the ongoing war between <u>Russia and Ukraine</u> has forced <u>greater spotted</u> <u>eagles</u>, a large raptor species, to change their **migratory paths**.

- IUCN Status: Vulnerable
- **Geographical Distribution**: Mostly vanished from western and central Europe, with a limited breeding population in Polesia, Belarus.
- India's Wildlife Protection Act. 1972: Schedule I (Other eagle species)
