

National Wildlife Health Policy

Source: PIB

Why in News?

Recently, the Indian government proposed a **National Wildlife Health Policy** aimed at addressing health threats faced by wildlife.

What is the Proposed National Wildlife Health Policy?

About:

- The <u>Central Zoo Authority</u>, under the <u>Ministry of Environment</u>, <u>Forest and Climate Change (MoEF&CC)</u>, organized a consultative workshop involving government departments, <u>NGOs</u>, academic institutions, <u>zoological parks</u>, and veterinary universities.
 - The policy development is being supported by institutions such as the GISE Hub at IIT Bombay and the Office of the Principal Scientific Adviser to the Government of India.

Aim:

- The policy will complement India's <u>National Wildlife Action Plan (2017-31)</u> and the <u>One Health policy</u>, which aims to optimize the health of people, animals, and the environment by recognizing their interdependence.
- The National Wildlife Action Plan (2017-31) outlines 103 conservation actions and 250 projects.
 - These include creating a standard protocol for <u>disease surveillance</u> in tiger reserves, protected areas, and forests, as well as establishing a legally binding protocol for mercy killing and euthanasia of wild animals.
- The policy will also cover areas such as managing wildlife pathogen risk, disease outbreak preparedness and response, and biosecurity.
- The policy aimed to promote R&D initiatives focused on wildlife diseases and health management strategies.
 - Enhance the **skills** and **knowledge** of **stakeholders** involved in wildlife conservation and management.

Current Wildlife Health Challenges:

- Indian wildlife is facing various health issues, including infectious diseases (<u>Canine</u> <u>Distemper Virus</u>), habitat loss, climate change impacts, and illegal activities.
 - The policy is required as India is home to over 91,000 species of wildlife, with more than 1,000 protected areas, including national parks, wildlife sanctuaries, and biosphere reserves.

Central Zoo Authority

- The <u>Central Zoo Authority (CZA)</u> is a statutory body under the Ministry of Environment, Forest and Climate Change, established in 1992 under the Wildlife (Protection) Act, 1972.
- It is chaired by the Environment Minister and has 10 members and a member-secretary.
- Its objective is to complement and strengthen the national effort in conservation of rich biodiversity.

WILDLIFE CONSERVATION INITIATIVES

Constitutional Provisions for Wildlife

42nd Amendment

Act, 1976: Forests & Protection of Wild Animals and Birds (moved from State to Concurrent List)

Article

48 A: State shall endeavor to protect & improve environment and safeguard forests and wildlife of country

Article

51 A (g):Fundamental duty to protect & improve natural environment including forests and Wildlife

Legal Frameworks

Wildlife (Protection) Act, 1972 Biological Diversity Act, 2002

Major Conservation Initiatives

Integrated Development of Wildlife Habitats (IDWH):

- Financial assistance provided to State/UT Governments for protection and conservation of wildlife
- (5) A Centrally Sponsored Scheme
- National Wildlife Action Plan (2017-2031)
- Guidelines for Eco-tourism in Protected Areas
- Human-Wildlife Conflict Mitigation
- Wildlife Crime Control Bureau: To combat wildliferelated crimes

Wildlife Division (MoEFCC):

- Policy and law for conservation of biodiversity and Protected Area network
- Technical and financial support to the State/ UTs under IDHW, Central Zoo Authority and Wildlife Institute of India

Wildlife Crime Control Bureau (WCCB):

Collection, collation of intelligence & its dissemination, establishment of centralized Wild Life crime databank, coordination etc.

Wildlife Crime Control:

- (5) Operation Save Kurma
- (5) Operation Thunderbird

Species-Specific Initiatives

Protection and conservation of Greater Adjutant in Gangetic riverine tract

Dolphin Conservation in Non-Protected Area Segment of Ganga River

Conservation Breeding Centre for Wild water buffalo (2020)

Recovery programme for Snow leopard (2009)

Recovery programme for Vultures (2006)

Project Elephant (1992)

Project Tiger/National Tiger Conservation Authority (NTCA) (1973)

Inclia s Collaboration with Global Wildlife Conservation Efforts

- Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES)
- Convention on the Conservation of Migratory Species of Wild Animals (CMS)
- (CBD) © Convention on Biological Diversity
- (9) World Heritage Convention
- (S) Ramsar Convention
- The Wildlife Trade Monitoring Network (TRAFFIC)
- (b) United Nations Forum on Forests (UNFF)
- (IWC)
- International Union for Conservation of Nature (IUCN)
- (G) Global Tiger Forum (GTF)

UPSC Civil Services Examination, Previous Year Questions (PYQs)

Q. If a particular plant species is placed under Schedule VI of the Wildlife Protection Act, 1972, what is the implication? (2020)

- (a) A licence is required to cultivate that plant.
- (b) Such a plant cannot be cultivated under any circumstances.
- (c) It is a Genetically Modified crop plant.
- (d) Such a plant is invasive and harmful to the ecosystem.

Ans: (a)

Q. Which of the following can be threats to the biodiversity of a geographical area? (2012)

- 1. Global warming
- 2. Fragmentation of habitat
- 3. Invasion of alien species
- 4. Promotion of vegetarianism

Select the correct answer using the codes given below:

- (a) 1, 2 and 3 only
- (b) 2 and 3 only
- (c) 1 and 4 only
- (d) 1, 2, 3 and 4

Ans: (a)
