

Medical Minister Inaugurated Oxygen Plant and Critical Care Unit

Why in News

On February 4, 2022, Rajasthan's Medical Minister Parsadi Lal Meena inaugurated the Medical Oxygen Plant and Critical Care Unit at Maharaj Vinayak Global University, Kukas.

Key Points

- Medical Minister Meena said that the state is completely self-sufficient in the matter of oxygen. For adequate medical oxygen, arrangements have been made for 40 thousand concentrators, while more than 472 plants have been set up.
- He said that the establishment of an oxygen plant by private organizations would work as a support for the state government.
- The cost of an oxygen plant imported from Italy at Maharaj Vinayak Global University is about Rs 50 lakh. The specialty of this plant is that it can convert normal oxygen into medical oxygen.
