

Project Akashteer

Source: ET

The Indian Army has initiated the implementation of control and reporting systems as part of 'Project Akashteer', a strategic move aimed at bolstering its air defence capabilities.

- Developed by Bharat Electronics Limited (BEL), the project is aimed at significantly enhancing the operational efficiency and integration of the Army's air defence mechanisms.
 - BEL is a Navratna PSU under the Ministry of Defence.
- The Akashteer Project stands as a pioneering effort to **automate** <u>air defence</u> **control** and reporting processes through digitisation, promising a streamlined approach to complex operations.

The Vision
