What is the Index All About?

▪ About:

- PGI-D assesses the performance of the school education system at the **district level by creating an index for comprehensive analysis.**
- The PGI-D assessed district-level performance in school education based on the data collected from various sources, including [Unified District Information System for Education Plus \(UDISE +\)](#), [National Achievement Survey \(NAS\), 2017](#) and data provided by respective districts.

▪ Methodology:

- **Structure:** The PGI-D structure **comprises a total weightage of 600 points across 83 indicators**, which are grouped under **six categories**:
 - Outcomes, Effective Classroom Transaction, Infrastructure Facilities & Student's Entitlements, School Safety & Child Protection, Digital Learning and Governance Process.
 - Two categories — digital learning and effective classroom transaction have been **added in the backdrop of the Covid-19 pandemic**. However, these categories were not part of the state-level PGI.

- These **categories are further divided into 12 domains.**

- **Assessment Grades:** The PGI-D grades the districts into 10 grades. **The highest achievable grade is 'Daksh'**, which is for districts scoring more than 90% of the total points in that category or overall.
 - It is followed by **'Utkarsh'** (81% to 90%), **'Ati Uttam'** (71% to 80%), **'Uttam'** (61% to 70%), **'Prachesta-1'** (51% to 60%) and **'Prachesta-2'** (41% to 50%).
 - The lowest grade in PGI-D is **'Akanshi-3'** which is for scores upto 10% of the total points.
 - None of the districts figured in the highest 'Daksh' grade in both these years.
- **Significance:**
 - The indicator-wise PGI score **shows the areas where a district needs to improve.** The PGI-D will reflect the relative performance of all the districts in a uniform scale which **encourages them to perform better.**
 - At the same time, it will also **act as a good source of information for best practices followed by States and UTs** which can be shared.
 - It **helps all the stakeholders in the school education system**, including the students, parents, teachers, and administrators to know the performance of their district vis-à-vis other districts.

What are the Key Highlights of the Report?

- **Best Performers:**
 - Three **districts from Rajasthan performed the best** in the assessment.
 - According to the report, the **three districts — Sikar, Jhunjhunu, and Jaipur figured in 'Utkarsh' grade** in 2019-20 in contrast to a year before when no district featured in that category.
 - Rajasthan has the highest 24 districts in this grade, **followed by Punjab (14), Gujarat (13), and Kerala (13).**
- **Lowest Performers:**
 - The **districts with the lowest scores (1 out of 50) in this category were:**

 - The 12 states/ UTs which **don't have a single district in the Ati-Uttam and Uttam are:**

- **Progress:**
 - As per the report, **the number of districts in all categories has increased.**
 - In the **'Ati Uttam' grade**, the number of districts increased from 49 to 86 during 2018-19 to 2019-20 **showing "remarkable improvements"**.

 - The outcomes category includes **learning outcomes of students, teachers' availability and professional outcomes.**
