 - The [Dearness Allowance](#) has been increased by **3%**, benefiting both current employees and pensioners.

 - This hike is aimed at cushioning [inflation](#) effects, providing additional monthly financial support.
- **Impact on Economy:**
 - **Increased Consumer Spending:** The hike boosts disposable income, especially around festive periods, spurring consumer demand.
 - **Inflation Control:** DA helps employees manage inflation, but an increase in demand could potentially raise inflation if supply doesn't keep pace.
 - **Fiscal Pressure:** For the government, DA hikes increase expenditure, which may strain the fiscal budget but stimulate economic growth through consumption.
