

# Tackling the Menace of Black Money

## Why in News

Recently, the **Union Minister of State for Finance** has stated in [Lok Sabha](#) that the **government's black money law** has helped detect several instances where Indians have been found stashing undisclosed income overseas.

## Key Points

### ▪ Black Money:

- There is **no official definition of black money in economic theory**, with several different terms such as parallel economy, black money, black incomes, unaccounted economy, illegal economy and irregular economy all being used more or less synonymously.
- The simplest definition of black money could possibly be **money that is hidden from tax authorities**.
- It can come from two broad categories:
  - **Illegal Activity:**
    - Money that is earned through illegal activity is obviously not reported to the tax authorities, and so is black.
  - **Legal but Unreported Activity:**
    - The second category comprises income from legal activity that is not reported to the tax authorities.

### ▪ Impacts:

- **Loss of Revenue:**
  - Black money eats up a part of the tax and, thus, the **government's deficit increases**.
  - The government has to **balance this deficit by increasing taxes, decreasing subsidies and increasing borrowings**.
  - Borrowing leads to a further **increase in the government's debt due to interest burden**. If the government is unable to balance the deficit, it has to decrease spending, which affects development.
- **Money Circulation:**
  - People generally tend to keep black money in the form of **gold, immovable property and other secret manners**.
  - Such money does not become part of the main economy and, therefore, remains generally out of circulation.
  - The black money keeps circulating among the wealthy and creates more opportunities for them.
- **Higher Inflation:**
  - The infusion of **unaccounted black money** in the economy **leads to higher inflation**, which obviously hits the poor the most.
  - It also increases the disparity between the rich and the poor.

### ▪ Government's Initiatives:

- **Legislative Action:**

- [The Fugitive Economic Offenders Act, 2018](#)
- [The Central Goods and Services Tax Act, 2017](#)

- [Prevention of Money Laundering Act, 2002.](#)
- **International Cooperation:**
  - **Double Taxation Avoidance Agreements (DTAAs):**
    - India is proactively engaging with foreign governments with a view to facilitate and enhance the exchange of information under Double Taxation Avoidance Agreements (DTAAs)/Tax Information Exchange Agreements (TIEAs)/Multilateral Conventions.
  - **Automatic Exchange of Information:**
    - **India has been a leading force** in the efforts to forge a **multilateral regime** for proactive sharing of **financial information** known as **Automatic Exchange of Information** which will greatly assist the global efforts to combat tax evasion.
    - The Automatic Exchange of Information based on Common Reporting Standard has commenced from 2017 enabling **India to receive financial account information of Indian residents in other countries.**
  - **Foreign Account Tax Compliance Act of USA:**
    - **India has entered into an information sharing agreement** with the USA under the act.
