

Project Akashteer

Source: ET

The Indian Army has initiated the implementation of control and reporting systems as part of '**Project Akashteer**', a strategic move aimed at bolstering its air defence capabilities.

- Developed by **Bharat Electronics Limited (BEL)**, the project is aimed at significantly enhancing the operational efficiency and integration of the Army's air defence mechanisms.
 - **BEL is a [Navratna](#) PSU under the Ministry of Defence.**
- The Akashteer Project stands as a pioneering effort to **automate [air defence control](#)** and reporting processes through digitisation, promising a streamlined approach to complex operations.
