

Knowledge exchange program launched

Why In News?

On April 11, 2022, Madhya Pradesh's Medical Education Minister Vishwas Kailash Sarang launched the Medical Knowledge Exchange Program, as well as released a brochure, from the auditorium of Gandhi Medical College.

Key Points

- On this occasion, the Medical Education Minister announced that the auditorium of GMC would be air-conditioned. Re-creation centers will be set up in all medical colleges for the convenience of the students. The emergency department of Hamidia will be made number one.
- Through this knowledge exchange program, the intellectual potential of each other will be exchanged. Through this, MoU is also being done with the expert doctors including the institute, who will share the knowledge through their disciplines.
- The Medical Education Minister appealed to the young doctors to connect more and more through MPGov and knowledge sharing portal.
- Commissioner Medical Education Nishant Varwade informed that a knowledge sharing mission cell based on 13 points has been established. Work is being done in this direction so that the entire country should benefit from the innovations of Madhya Pradesh.
- Medical Incubation Center will be started with IIT Indore. Madhya Pradesh will be the first state in the country to start this centre.
