

Composite License for Insurer

[Source: IE](#)

Recently, the central government proposed introducing composite licenses through an amendment to the **Insurance Act, 1938**, aiming to increase [insurance penetration](#) in India and achieve '[Insurance for All by 2047](#)'.

- **Composite License:** A composite license allows insurers to offer [life and non-life insurance](#) under a **single registration**, consolidating operations into one entity.
 - Currently, insurers need to obtain **separate licenses** for each line of business.
- **Benefits:**
 - A composite license **reduces costs** and **compliance** by allowing insurers to manage multiple lines under one entity, **boosting innovation** and **efficiency**.
 - **Life insurers** can provide **indemnity-based health insurance**, improving underwriting and reducing costs with integrated IT systems.
 - **Agents** can sell both **life and non-life products**, better meeting customers' financial needs.
- **Regulatory Changes:**
 - **Public Sector Undertaking (PSU)** insurers need amendments to the [Life Insurance Corporation \(LIC\) Act of 1956](#) and the [General Insurance Business \(Nationalisation\) Act \(GIBNA\) of 1972](#) to be eligible for composite licenses.
